

I apologise to those who support this outreach, both financially and in prayer, for failing to get the usual type of report completed for October, and now November also. It's been on my heart to not continue to forward extracts from emails as I've done in the past, because with the way the work is now progressing, much of the mail we receive is too personal to publish. Instead we will attempt to give an outline of what the Master is doing through his servants in the many places where we are involved, realising that his work continues in many other areas also. So here goes: The hunger and need for literature has continued to expand as we endeavour, by our God's good grace, to reach into new areas and new countries. We are currently involved with indigenous evangelists and pastors along the entire East Coast of Africa, plus much of Central and West Africa, and expanding areas of India. These places seem to be predominantly Muslim, but there are also many Hindus, Satan worshipers and worshipers of all kinds of idols and natural gods among them. The grace of our God is touching many hearts, causing them to turn from darkness to light, and from the power of Satan to God, using his servants to continue the work which he caused the apostle Paul to start, as we read in **Acts 26:16-18**. One of the new areas we are involved in is North East Africa. This work started for us about six months ago in Somalia when an evangelist named Joseph Mujahidin contacted us, asking for literature. He has a team of up to 1,000 workers who labour with him in this task which the Master gave him during a time of imprisonment for his faith in Christ Jesus some years ago. On completion of the outreach in Somalia, he has now nearly completed two months in Ethiopia. On finishing there he will be going into Sudan for another two months. We are so very blessed and privileged to assist with literature. Another new area for us is Zambia, through Pastor Enock Katongo. Over the years we have been involved in many of the countries surrounding this nation, but this is possible the first there. The success of this contact was once again made possible only through our dear brothers and representatives in Tanzania, Pastors Phillip and Kissa Mahali, just as has so often happened before in much of East and Central Africa. We are so blessed and privileged to work with this beautiful Christian couple. In India, through our dear brother Pastor Ephraim Penumala and the entire Penumala family, the work of outreach continues across an area with a population of over 80,000,000. There are well over 200 pastors involved in this work which is reaching into remote villages there. They also hold monthly meetings in TB and leprosy hospitals, with many patients and staff accepting Jesus Christ as their Saviour and Lord. Also, each month the ladies in the different areas hold meetings which have resulted in many Muslim and Hindu families coming to know the Lord Jesus as their Saviour also. The work in West Africa is struggling because of lack of funds, but we wait on our Master/Provider. After all, this is his work, not ours.
